Switchover to electronic package inserts

Dear Sir or Madam,

We are writing to inform you that, with immediate effect, we will no longer be providing a package insert (instructions for use) with every implant. Instead, we will make these available electronically as a PDF or, upon request, as a paper version.

In the future, you will find the information required to download the electronic version from the icotec website on the icotec implant packaging:

The relevant instructions for use are displayed on the website ifu.icotec-medical.com upon entering the **REF** number (reference number) of the corresponding implant in the "REF" field.

A web-enabled device (PC, tablet, smartphone) and Internet access are required to access the website. To display the instructions for use as a PDF, you require a PDF viewer (e.g., Adobe Acrobat Reader).

We would be happy to send you an electronic version of the instructions for use by e-mail or a paper version by post at no cost to you (within 7 days).

Orders should be placed via:

- icotec website: ifu.icotec-medical.com
- Phone: +41 71 757 00 00
- E-mail: info@icotec.ch

Please forward this notice or a copy thereof to all icotec product users (or their customers) as well as any other persons in your organization who need to be notified.

Should you have any questions, your contact partner at icotec will be happy to be of assistance.

Best regards
The icotec team
